NIPPO AFRICA INTRODUCTION

Nipo Africa Engineering Co. Limited develops and supplies products of high quality that meets international standards. Our dual goals of quality control and cost minimization are achieved through creating close relationships with a network of producers and marketing professionals in the supply chain.

Our products include building Material such Aluminum profiles, steel bars, cement and other construction hardware. We do also supply farm products, protective gears, militia supplies, camping equipments, office supplies and laboratory supplies. Nipo Africa's primary mission is to provide quality products and cost containment solutions to our clients while enhancing quality measures.

Our uniquely designed steel structure furniture has made Nipo Africa to be a one stop furnishing and fitting solutions for Universities, Teaching Colleges and Secondary schools furniture requirements. We do fabricate various types of steel beds (beds and double decks), tables and chairs

General Contracting

We have successfully managed complex construction and engineering projects. We believe team work and communications are the key part in delivery successfully project.

Our general contracting services help ensure that your project moves forward as smoothly as possible, from pre-construction to finish. We'll guide you through the entire process, offering scheduling, quality control, and supervision. We will also maintain our dedication to promoting a safe construction site, and handle the many unique challenges that arise along the way.

Supply Building Material

Our products include building Material such Aluminum profiles, steel bars, cement and other construction hardware. We do also supply farm products, protective gears, militia supplies, camping equipments, office supplies and laboratory supplies. Nipo Africa's primary mission is to provide quality products and cost containment solutions to our clients while enhancing quality measures.

Our uniquely designed steel structure furniture has made Nipo Africa to be a one stop furnishing and fitting solutions for Universities, Teaching Colleges and Secondary schools furniture requirements. We do fabricate various types of steel beds (beds and double decks), tables and chairs

Interior Decoration

Nippo Africa is also very proud on its unique interior decoration services which have made it to be a permanent partner of all builders and construction companies. Our approach to assignments are based on 24/7 (24 hours, 7 days a week) which gives us the advantage of completing the work within the scheduled time or ahead of time.

Earth Moving

With promising capacity and brand variation we move the earth. Directly on site or indirectly, our equipment reliability is always our top most priority. Our fleet register is actively growing with technology and demand.

Coal Mining

We seek and obtain dealership and distribution agency contracts with different manufacturers of mining and construction materials both locally and international to ensure better and competitive prices for our customers. Our use of sophisticated fleet management programs ensures smooth deliveries that complement to our robust procurement process, pre-contracted prices with manufactures to ensure consistent and predictability of prices.

The core objective is to deliver profit to our customer through costs minimization, efficiency and timely supply of materials, consistently at high quality. Providing a hedging opportunity for the uncertainty of project costs as results of material and labor price fluctuation.

Building and Construction

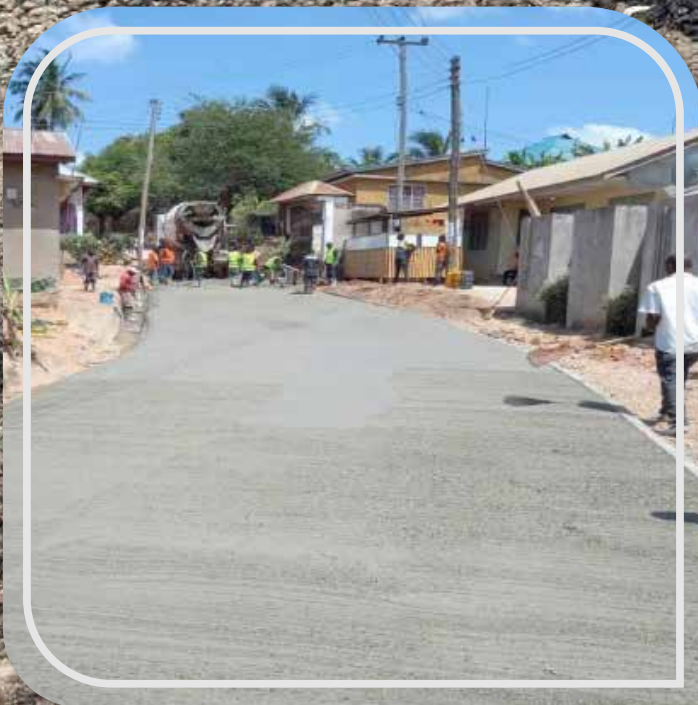

Apart from supplying building material, we are registered as building contractors, Civil works contactors and specialist contactor – Aluminum, metal and glass works. Nipo Africa is also very proud on its unique interior decoration services which have made it to be a permanent partner of all builders and construction companies. Our approach to assignments are based on 24/7 (24 hours, 7 days a week) which gives us the advantage of completing the work within the scheduled time or ahead of time.

Roadworks

We offer a wide range of civil engineering services. Our services cover municipal engineering construction, concrete, steel and composite structures, foundation construction as well as industrial construction.

We carry out road and street construction projects and the improvement of existing roads from access roads to motorways with proven efficiency.

Environment Aspects/ Characteristics

Our Partners and Clients

Our partners have worked with us to deliver ever more innovative, effective and successful projects and programmes and their support has been vital in achieving our Mission and Vision.
